Key Ops/Tech Highlights Since Long Beach

- Held a very successful Planning & NEPA Workshop in December
- Finalized apron safety guidance material for airport operators
- Continued working with FAA and flight operators to improve NextGen flight procedure design and implementation processes
- Reviewed and commented on substantive changes to FAA winter operations/field condition reporting guidance
- Provided airport perspective to regulators regarding airport surface management, airfield operations during construction, and UAS, among other topics
- Supported ACI World Safety & Technical Standing Committee work efforts

How to Get Involved

- Follow committee activities and discussions online
 - <http://www.aci-na.org/committees/opstech>
 - <http://acina-opstech.groupsie.com>
- Help a Working Group
 - Operations & Safety
 - Planning & Development
 - Construction & Project Delivery
 - Facilities & Maintenance
 - NextGen

See Chris Oswald or Paul Eubanks for more information

Upcoming Events

- ➔ June 8-9, 2016: ACI-NA/ACC/AGC Airport Construction Strategy Summit, Atlanta
 - W Hotel | Atlanta, Georgia
 - Alternative project delivery methods, construction management strategies, procurement issues and more
- ➔ September 24-27, 2016: ACI-NA/ACI World Annual Conference & Exhibition, Montreal
 - Ops/Tech Preconference Seminar on Sept. 24-25 together with ACI World representatives
 - Dual focus on global safety initiatives and airport development practices
- ➔ March 27-30, 2017: Airports@Work 2017, Las Vegas

Airport Roundtable

- ➔ Discussions of current issues, challenges, or successes at your airport
- ➔ Associate members/world business partners are encouraged to share recent insights and project experiences
- ➔ Please keep your remarks to 5 minutes or less so we have time for all to provide update
- ➔ Questions and requests for information for the membership are welcome during your remarks!
